

## Finding Magazine Articles using EBSCOhost Search

1. Start at the **GALILEO Scholar** home page: [www.galileo.usg.edu](http://www.galileo.usg.edu).
2. Click on the yellow "**Databases A-Z**" button.
3. Type "**EBSCOhost Search**" in the text box and click on "Find Database"  
(or click the "E" index and select from an alphabetic list).
4. Click on the "**EBSCOhost Search**" link to open the EBSCO search screen.
5. **Type your search terms** in the text box and click the "**Search**" button.
6. **Search results are listed in blocks of ten brief article citations.**

The title of the article appears in blue and is underlined, followed by the author, publication, date, volume, issue number and pages.

7. **To view the full-text magazine article:** click on the links beneath the title labeled:  
HTML Full Text or PDF Full Text .
8. **To print the article:** For HTML Full-Text articles use the printer icon on the toolbar above the text; for PDF Full-Text articles select the printer icon on the Adobe toolbar.
9. To return to the list of results, click the "**Result List**" link above the text of the article (in upper left screen area).
10. **Revising EBSCOhost Search Selections**

EBSCOhost pre-selects all essential databases to search. To de-select any database:

- A. Click on the blue "**Choose Databases >>**" link above the search box.
- B. De-select databases by clicking the small box next to a database name to remove the check mark.
- C. After de-selecting unwanted databases click the "**OK**" button at bottom.
