

SkillsUSA Membership Policy

In submitting your membership roster to SkillsUSA, you are agreeing to pay the membership fees of the listed students and professionals for the current school year. Please make sure that all your students and instructors are willing and able to pay their membership dues before they are registered.

Membership Dues

All SkillsUSA members, including professional members, must pay both state and national membership dues. National dues are \$8 for students and \$14 for adults. State dues vary. For a list of state dues and deadlines, refer to your latest SkillsUSA Membership Kit.

Membership Deadlines

Members must register by their state deadline to be able to compete in the SkillsUSA Championships, run for national office or serve as a national voting delegate. The final national membership deadline is March 1. You may add additional members at any time, through your state deadline.

Membership Services

The membership year runs annually September 1 through August 31 for students, and for one calendar year from the date of enrollment for adults. Services will begin when your membership roster is received. Member benefits include a subscription to *SkillsUSA Champions* magazine, a membership card and other mailings, along with opportunities for local, state or national competitions, scholarships and honors. Students whose roster is received by Nov. 15 are sent all four issues of the magazine for the year.

Drops and Substitutions

Membership is considered final when your roster is submitted. SkillsUSA does not permit members to be dropped from a roster once enrolled. You may not substitute a student or adult name for a previously enrolled member.

Payments

You may pay for membership by using a credit card, check or purchase order. Membership payments are due "Net 40." Please keep a record of when and how much students at your school pay, in case your payment needs to be verified in the future.
